The JAVAcid Inside Story - Founder, Randy Andrews

The coffee science behind the breakthrough all natural acid relief of the JAVAcid patent-pending formula first got its inspiration years ago from Founder, Randy Andrews.

For years the maverick inventor and coffee lover, Andrews, hailing from coffee-loving Oregon, was plagued by coffee acid reflux. A frequent business traveler, Andrews tirelessly searched for any low acid coffee remedy from Starbucks® to Folgers®.

But like over 35-million Americans each sip of his favorite brew resulted in heartburn indigestion and stomach reflux.

“Like so many others, I regularly experienced stomach trouble, particularly after consuming acidic foods. The first thing the doctor tells us is, ‘Lay off the coffee and spicy foods’... (my two favorites)” says, Randy Andrews, Founder of JAVAcid.

For Andrews, there was no chance he was going to give up his beloved coffee. As one might imagine, being an innovative entrepreneur with coffee acid reflux was an incompatible blend. It took years of tireless research and quality assurance, testing many different variations and ingredients but he still was not satisfied with the results. Working through trial and error like most inventors, Andrews, engaged nutrition experts and organic chemists before approving the final formula-JAVAcid, the all-natural, healthy solution to coffee acid reflux.

New JAVAcid Dispenser!
The JAVAcid package was completely redesigned for easy single packet access.

Talk to your office manager about getting one of these handy dispensers placed in your cafeteria or near the coffee machine at work - spread the love!

JAVAcid

DGL Licorice Inside JAVAcid Remedy

The patent-pending JAVAcid formula contains herbal DGL licorice- a natural ingredient-that has been proven to promote relief for acid reflux, peptic ulcers, and even heartburn indigestion, and stomach acid.

DGL has a long history of use for reducing acid and soothing inflamed, mucous membranes in the digestive tract. Researchers have found DGL may protect the stomach and duodenum by increasing production of mucin, a substance that protects the lining of these organs against stomach acid and other harmful substances.

According to laboratory research, flavonoids in licorice may also inhibit growth of *H. pylori*, the bacteria that has been implicated in many cases of stomach ulcers. Doctors that recommend herbal medicine for patients with peptic ulcers often use deglycyrrhizinated licorice. In making DGL, the portion of licorice root that can increase blood pressure and cause water retention is removed, while the acid reducing, mucous-membrane-healing part of the root is retained.

DGL (licorice extract) is a leading ingredient in JAVAcid's all natural formula delivering instant coffee acid relief and digestive health ingredients right there in your favorite cup of coffee.

Peptic Ulcer - Coffee Acid and JAVAcid

A peptic or stomach ulcer results from a tissue break in the lining of either the stomach or the first part of the small intestine below the stomach called the duodenum. Peptic ulcers occur in those regions of the gastrointestinal tract that are bathed by digestive juices secreted by the stomach. These juices contain hydrochloric acid and a digestive enzyme called pepsin - hence the name "peptic" ulcer.

Data shows that drinking too much coffee or soda beverages can irritate ulcers. Medical research shows one out of every 10 Americans, or thirty-million, will experience a peptic stomach ulcer sometime during his or her life. Each year, over 60,000 operations for peptic ulcer disease are performed.

You don't have to give up your coffee moment. Coffee brings so many good things to your life- allow JAVAcid to help you proactively protect your stomach.

JAVAcid

The JAVAcid Inside Story (cont. from page 1)

Words were never more meaningful as Andrews recites Thomas Edison's quote; "I have not failed. I've just found 10,000 ways that won't work."

But ultimately Andrews did find the solution to coffee acid reflux in JAVAcid, making him a java industry pioneer.

Today, for over 90% of consumers using JAVAcid, the easy to use flavorless supplement packets are a hit making any coffee blend, mocha, latte, and espresso, instantly stomach friendly.

Now, millions of people worldwide suffering reflux disease, GERD, heartburn, interstitial cystitis (IC), IBS and body pH imbalance can once again enjoy the pure flavorful taste of their favorite coffee.

JAVAcid's propriety formula of prebiotic fiber, calcium, vitamin D, and DGL (licorice extract) is key in enabling the body to defend against acid in the stomach. It energizes healthy digestion, reducing stomach acid at zero calories without altering the flavor of your coffee.

To order, just visit us at www.javacid.com

Enjoy any coffee blend - now made stomach friendly when you add a packet of JAVAcid - 877-JAVA-cid

What's Inside Your Cup of Java?

Ever wonder just what your drinking in the morning cup of java? It's a growing concern for millions of Americans who suffer from **coffee acid reflux** and **heartburn indigestion**. While we at JAVAcid know that our product helps alleviate the negative symptoms, which are very real, we thought we would look at the GOOD side of this magical brew;

Caffeine: Did you know that an 8-oz cup of coffee (with or without caffeine) contains more antioxidants than an adult portion of oranges or blueberries? Tea and chocolate follow closely. Some studies show that moderate drinking of coffee seems to lower your risk for some chronic conditions such as heart disease, diabetes and aging related cognitive or thought-process declines.

Arterial Help: The American Journal of Clinical Nutrition in May, 2006, noted that postmenopausal women who drink one to three cups of coffee on a daily basis will be 24% less likely to develop cardiovascular disease than non-coffee drinkers. That is great news for coffee lovers!

Join us again in our next publication, when we discuss further findings regarding JAVA - or coffee.

GET SOCIAL for 1 or 1/2 lbs. of Gourmet Coffee from JAVAcid's Randy Andrews!

Randy Andrews invites you, our fabulous customer family, to 'Get Social' and become a Fan on our Facebook page and post comments to our Facebook page as well.

Then, send us a testimony and upload videos to YouTube or pictures to Flickr showing us how you use JAVAcid during your normal everyday life - at home, in the office or on the road. Or simply send us the files and we'll post them for you! Visit www.javacid.com/javacid-free-coffee/javacid-free-coffee.html for complete instructions.

Here's how to get your coffee:

- 1) Visit our Facebook page to become a FAN! This is the first step in receiving the coffee. Find us here: <http://www.facebook.com/pages/JAVAcid/105816716107005> Please note, you must have a Facebook account to post comments on our page or become a Fan.
- 2) Share your personal Testimonial with the world using the handy form on the JAVAcid web site: <http://www.javacid.com/t-talk.aspx> or simply email it to us as a MS Word doc to support@javacid.com. (150-300 words max.)
- 3) Upload pictures to Flickr and/or videos to YouTube. After uploading, send us the URL or address showing us where to find them.
-- OR --
- 4) You can send us the videos and pictures directly to our SPECIAL email address at: javacidhelp@gmail.com - Please Note: There is a 20MB file upload limit when sending files which is why we use Google's gmail.

Complete step 1-4 - Facebook, Testimony video and pictures to receive 1 lbs. of Gourmet Coffee. If you only complete 3 steps then you will still receive 1/2 lbs. !!!

For more info on the Free Coffee offer email us at: support@javacid.com or call us at: **877-JAVAcid (877-528-2243)**

JAVAcid Sponsors Kids - 100th Cup Club

JAVAcid.com is proud to pass along a simple message: since coffee is the second largest commodity traded on the planet in terms of dollars, how powerful would it be if coffee people like you, the little coffee shop on the corner and the big international companies were to leverage a little percentage of every 100th cup of coffee sold, or every 100th coffee-related product sold to the benefit of people and the planet?

Sometimes the smallest ideas have the biggest impact.

As a founding sponsor of 100thcup.org, JAVAcid.com hopes to set an example by donating the entire retail price of every 100th box of JAVAcid sold to a **100th Cup** featured charity.

If you would like to get involved please visit 100thcup@javacid.com - Do it Today!

Every box of JAVAcid contains 30 packets of goodness...
